

Report and Issues #3 Compute

Hayya Vevila Faisal/6182201101

1. Saya menonton semua video
2. Lalu, saya mengerjakan lab
3. Dan terakhir saya mengerjakan quiz, lalu menonton summary

The screenshot shows a web browser displaying a course summary page from Google Cloud. The URL in the address bar is cloudskillsboost.google/parts/36/course_templates/153/documents/515766. The page title is "Course 1 summary v1.3.2". On the left, there's a sidebar with a "Main menu" button and a list of course modules: "01 Google Cloud Computing Foundations: Cloud Computing Fundamentals" (marked as complete), "Containerizing and Orchestrating Apps with GKE" (marked as complete), "Lab Intro: Kubernetes Engine: Qwik Start" (marked as complete), "Google Kubernetes Engine: Qwik Start" (marked as complete), "Managed serverless computing with Cloud Run" (marked as complete), "Quiz" (marked as complete), and "Summary" (marked as complete). On the right, there's a main content area with a heading "Demonstrate your capabilities further!". It includes a message about completing the first course and earning a skill badge for "Implement Load Balancing on Compute Engine". Below this, there's a list of steps to earn the badge: 1. Enroll in the Implement Load Balancing on Compute Engine skill badge, 2. Complete any unfinished labs, 3. Complete the "Implement Load Balancing on Compute Engine: Challenge Lab", and 4. Earn your skill badge and share on social media or your resume. At the bottom, there are "Previous" and "Next" buttons.
